PICK UP DATES

April 21, 8:00 am-6:00 pm & April 22, 8:00 am-Noon

at Geig's Orchard, 8468 Wooster Pike (Rt. 3)

Seville, Ohio 44273

Seedlings, shrubs, and more....

The District is offering some new selections as well as many varieties that we offer each year. Deadline for ordering is **April 4, 2017**, but order early as they are sold on a first come-first served basis and many seedlings will be sold out before that date. Pickup dates for **seedlings** are **Friday, April 21, 8:00 a.m. -6:00 p.m.** and **Saturday, April 22- 8:00 a.m. - Noon** at **Geig's Orchard, 8468 Wooster Pike (State Route 3), Seville**. Most seedlings will easily fit in a grocery sack.

The District is not responsible for survival of the seedlings after pickup.

****No pick-up notice will be mailed. ** **Deadline for ordering is April 4, 2017****

A. Blue Spruce, *Picea pungens*: Beautiful ornamental or windbreak tree with stiff, sharp pointed needles ranging in color from dark green to silver blue. Prefers moist, well-drained soils, plenty of sunlight, and requires little shaping.

B. Norway Spruce, *Picea abies*: Exceptionally fast growing, straight stemmed stock makes this tree desirable for Christmas trees, ornamentals, timber or windbreaks. The twigs and branchlets hang downward; height of 60-90 feet; intolerant of shade, sensitive to drought.

C. White Pine, *Pinus strobus*: A five-needled pine with soft, light green needles 4" long. Can tolerate shade, ordinary soil; even wet areas. Mature height is 100 feet.

D. American Arborvitae, *Thuja occidentalis*: A medium-sized tree with a shallow, wide-spreading root system and narrow, pyramid-shaped crown. Maximum height is 40'-60' with a 12'-15' spread. Prefers full sun but can tolerate light shade.

E. Bald Cypress, *Taxodium distichum*: Grows 50-70 feet in height. Spread of 20 feet. Bright yellow-green needles in spring turning to rich orange to pumpkin brown in autumn. Deciduous. Grows in a wide range of soil conditions from wet, swampy areas to dry ground. Good for wetland plantings.

F. American Larch, *Larix laricina* A slender deciduous ornamental growing to a height of 40 to 80 feet. Spread of 15 to 30 feet. Soft, lacelike needles are pale, bright blue-green throughout spring and summer. Foliage turns bright yellow in the fall. Plant in full sun, prefers moist, acidic, well drained soil. Looses needles annually

G. Eastern Red Cedar, *Juniperus virginiana*: A dense pyramidal evergreen growing 40 to 50 feet. Spread of 8 to 20 feet. Medium green needles are flat with grayish to reddish brown bark. Should grow in almost any soil and does well in poor gravelly soils. Due to its fast dense growth, makes it a good choice for screen or hedge.

H. Pin Oak, *Quercus palustris*: Height of 60-70 feet, and width of 25-40 feet, fast growing tree with bright red fall color. Is commonly used as a street tree.

I. White Oak, *Quercus alba*, Grows 50 to 80 feet in height and as wide. Grows best in a deep, loamy, well drained soil. A good tolerance of highway salt. Prized timber tree.

J. Sugar Maple, *Acer saccharum*: Grows to a height of 60-75 feet. Spread of 45-50 feet. Mature trees provide sugar products from sap in the spring. A good timber tree. Does not do well in wet areas or in small compact restricted growing areas.

K. Red Mulberry, *Morus rubra*: Fast growing hardwood with a broad spreading crown growing to a height of 30-50 feet. Spread of 20-40 feet. Prefers warm, well drained soil, but widely adaptable to many soil conditions. Shade tolerant. Fruits are a favorite of people, birds and small mammals. Mulberries produce excellent jam, jelly, juice and flavorful wine.

L. Scarlet Oak, *Quercus coccinea*, Grows 70 to 75 feet in height by 40 to 50 feet wide. Foliage is an excellent glossy dark green in summer changing to scarlet in the fall. Likes loamy, well drained soil. Excellent for street plantings.

M. Black Oak, *Quercus velutina*, Grows to a height of 50 to 80 feet. Grows in moist, rich, well drained soils.

N. Sycamore, *Platanus occidentalis*: A native fast growing tree with grayish bark that exfoliates to expose the inner creamy white bark. Tolerant of flooding, good along streams.

O. Tulip Poplar, *Liriodendron tulipifera*: A fast growing tree with distinctive greenish yellow flowers in the spring. This tree is a major honey plant, and seeds are eaten by many species of birds.

P. Black Gum, *Nyssa sylvatica*, Grows to a height of 30 to 50 feet with a spread of 20 to 30. Grows in all soil types. Stunning fall color. The fruit attracts many birds and wildlife. In spring it provides nutrition for bees.

Q. Paw Paw, *Asimina triloba*: Known for its banana like fruits, large tropical looking leaves and unique, red flowers.

R. American Persimmon, *Diospyros virginiana*, Grows 25 to 40 feet in height and 20 to 35 in width. The white, fragrant flowers are very sweet and a favorite of honeybees. Edible fruit, and more than one tree is needed for pollination.

S. Hybrid American Chestnut, *castanea dentate x*, A fast growing hybrid reaching a height of 80 to 100 feet. Plant in full sun, well drained soil. These are one year seedlings and are sold 3 in a pack and are only 3-6". Recommended to be started in pots.

SHRUBS

T. Black Chokeberry, *Aronia melanocarpa*, Fast growing, height of 3 to 5 feet, spread of 10 feet. Food for wildlife, very adaptable. Good wetland plant.

U. Red- Osier Dogwood, *Cornus stolonifera*: Grows 7-10 feet tall, 6-8 feet wide. Prefers sandy to clay soils, does well on moderately wet soils. Flowers in May, fruit eaten by birds.

V. American Cranberry, *Viburnum trilobum*: a deciduous shrub, growing 8-12 feet in height. Bright red berries provide food for birds. People used to make jelly from the berries. A good wetland plant, and shade tolerant.

W. Elderberry, *Sambucus Canadensis*, Very fast growing to 10 feet in height with a spread of 6 to 8 feet. Berries are used for making jelly, preserves and wine. Good food source for wildlife. Any type of soil and wetland tolerant.

X. American Witchhazel, *Hamamelis virginiana*, Grows to a height of 30 feet with a spread of 15 feet. Very attractive, with ribbon like flowers in fall and winter.

Y. White Flowering Dogwood, *Cornus florida*: Native tree that bears white flowers in spring and red berries in fall. Shade tolerant.

Z. Spicebush, *Lindera benzoin*: Deciduous shrub, very tolerant of wet conditions. Suitable for shady areas, scarlet fruit fall through early winter.

Miscellaneous Sale Items

AA. Flags (10) - Flags are 21" long with a blue flag for easy spotting of your seedlings in yards and fields.

BB. Fertilizer tablets (10) - Time release tablets for trees and other plants. The formula contains nitrogen, phosphorous, potassium, and trace elements in solid form to feed plants in a wide range of soil and climate conditions. Use one tablet per seedling, transplant, and other wood cutting.

CC. Bluebird House (each) - these houses are made from cedar. The ideal location is near mixed hardwood forests or grasslands. Boxes should be mounted on posts about 5 feet above the ground.

DD. Northeast Perennial & Annual Wildflower mix (1 ounce packet) - This is a beautiful all-purpose wildflower mix, containing about 1/3 annual wildflowers for first year & 2/3 perennials for color the following years. This is a mix of native and naturalized species. Each packet will plant 200 sq. ft.

EE. Garden cover crop seeds: (1 lb packet) - Garden Cover Crop Mixes help to reduce erosion and compaction, and increase water permeation in the garden. They also hold minerals normally leached from your soil over the winter. Densely planted cover crops will suppress perennial and winter annual weed growth. The top growth and roots add organic matter to the garden soil. The cover crop's root system also opens passageways that help improve air and water movement and supports microbial life. This microbial life works synergistically with the roots, bacteria and fungi to improve soil health. Mix contains untreated seeds suitable for organic gardeners, plant in August through October first, with no soil prep. Covers 200 sq. ft., winter kills. **These will be available for pick up in June.**

FF. Pollinator Garden Signs: 12 x 12 sign with a yellow background and black images and text which reads

"Butterflies at Play".

GG. Shiitake Mushroom kits: Enjoy fresh, delicious gourmet mushrooms year-round. Each kit comes with 200 spawn plugs, 1/4 lb. bees wax, wax dauber, and 5 metal labels with growers guide. Each kit will plug approximately 10 3 to 4" diameter logs, 40" long. It can take from 7 months to 2 years for the mushrooms to spawn. Logs (you supply) that will work include white oak, bur oak, swamp white oak, red & black oak, soft maple and hickory.

Seedling Pick up dates:

April 21 8am-6pm & April 22 8am-Noon
