

## 2025 EARTH DAY COLORING CONTEST: "Home is Where the Habitat is."

Habitat is a place where living things, such as plants, animals, or people grow and live.

There are 3 habitats on this page: aquatic (water), terrestrial (land), and aerial/arboreal (air/trees).

**COLOR** the picture & **DRAW** something living in at least one of these habitats. Rules on prior page.

Having native trees, shrubs, and plants around bodies of water increases habitat for wildlife, and they filter out stormwater pollution from surface and ground water. This benefits both wildlife and people!

(This entry slip must be filled out) - *Only the student's first name, grade, & school will be shown to protect child safety and privacy.*

Student's First & Last Name: \_\_\_\_\_ Grade: \_\_\_\_\_

Teacher: \_\_\_\_\_ School: \_\_\_\_\_

Parent/Guardian's name: \_\_\_\_\_ Parent/Guardian's phone: \_\_\_\_\_

*For homeschool students, please include home address in school line.*
