**\*\*PICK UP DATES\*\***

April 26, 8:00 am-6:00 pm & April 27, 8:00 am-Noon

**at Geig's Orchard, 8468 Wooster Pike (Rt. 3)**

Seville, Ohio 44273

## Seedlings, shrubs, and more....

The District is offering some new selections as well as many varieties that we offer each year. Deadline for ordering is **April 5, 2019**, but order early as they are sold on a first come-first served basis and many seedlings will be sold out before that date. Pickup dates for **seedlings** are **Friday, April 26, 8:00 a.m. -6:00 p.m.** and **Saturday, April 27- 8:00 a.m. - Noon** at **Geig's Orchard, 8468 Wooster Pike (State Route 3), Seville**. Most seedlings will easily fit in a grocery sack.

**The District is not responsible for survival of the seedlings after pickup.**

*\*\*No pick-up notice will be mailed. \*\* \*\*Deadline for ordering is April 5, 2019\*\**

**A. Blue Spruce, *Picea pungens*:** Beautiful ornamental or windbreak tree with stiff, sharp pointed needles ranging in color from dark green to silver blue. Prefers moist, well-drained soils, plenty of sunlight, and requires little shaping.

**B. Norway Spruce, *Picea abies*:** Exceptionally fast growing, straight stemmed stock makes this tree desirable for Christmas trees, ornamentals, timber or windbreaks. The twigs and branchlets hang downward; height of 60-90 feet; intolerant of shade, sensitive to drought.

**C. White Pine, *Pinus strobus*:** A five-needled pine with soft, light green needles 4" long. Can tolerate shade, ordinary soil; even wet areas. Mature height is 100 feet.

**D. Scotch Pine, *Pinus sylvestris*:** Medium growth rate, should grow to 50 feet in height, with a spread of 15 to 20 feet. Short pointed green to blue green foliage. Good winter color, extremely hardy, disease resistant, and drought tolerant. Best in well drained soils, but tolerates poor soils and even heavy clay very well.

**E. American Arborvitae, *Thuja occidentalis*:** A medium sized tree with a shallow, wide spreading root system and narrow, pyramid shaped crown. Maximum height is 40'-60' with a 12'-15' spread. Prefers full sun but can tolerate light shade.

**F. Eastern Red Cedar, *Juniperus virginiana*:** A dense pyramidal evergreen growing 40 to 50 feet. Spread of 8 to 20 feet. Medium green needles are flat with grayish to reddish brown bark. Should grow in almost any soil and does well in poor gravelly soils. Due to its fast dense growth, makes it a good choice for screen or hedge.

**G. Tamarack, *Larix laricina*:** Medium to fast growth, grows to a height of 70 feet with a spread of 20 feet, prefers moist to wet soils and full to part sun. It is the only deciduous conifer native to Ohio

**H. Chinkapin Oak, *Quercus muehlenbergii*:** Slow to medium growth, grows to a height of 60 feet with a spread of 80 feet, prefers full to partial sun. Grows best in moist well drained soils.

**I. Pin Oak, *Quercus palustris*:** Medium to rapid growth. Grows to a height of 70 feet with a spread of 40 feet. Prefers full to partial sun and wet soils.

**J. White Oak, *Quercus alba*:** Slow to medium growth. Grows to a height of 70 feet with a spread of 40 feet. Prefers Full to partial sun, and well drained soils.

**K. River Birch, *Betula nigra*:** Rapid growth, grows to a height of 50 feet with a spread of 40 feet. Prefers full to partial sun and moist to wet soils.

**L. Red Maple, *Acer rubrum*:** Medium to fast growth. Grows to a height of 70 feet with a spread of 40 feet. Prefers full to partial sun, and moist to wet soils.

**M. Sugar Maple, *Acer saccharum*:** Grows to a height of 60-75 feet. Spread of 45-50 feet. Mature trees provide sugar products from sap in the spring. A good timber tree. Does not do well in wet areas or in small compact restricted growing areas.

**N. American Plum, *Prunus americana*:** Medium growth rate. Grows to a height of 20 feet with a spread of 25 feet. Prefers full sun and moist well drained soils. Important to songbirds for nesting and bedding area. Fruit is edible.

**O. Redbud, *Cercis canadensis*:** A small tree with irregular branching, rarely over 35 feet in height. The blossoms appear in the spring before the leaves. Seeds eaten by birds, flower buds enjoyed by butterfly larvae.

**P. Tulip Poplar, *Liriodendron tulipifera*:** Rapid growth, to a height of 80 feet with a spread of 40 feet. Prefers full to partial sun in moist well drained soils. Spring flowers provide nectar for hummingbirds and the seeds summer through winter provide food for both birds and mammals.

**Q. Black Willow, *Salix nigra*:** Rapid growth to a height of 30 feet and a spread of 30 feet. Prefers full to partial sun. Will grow in any soil type as long as it is permanently wet.

**R. Common Hackberry, *Celtis occidentalis*:** Medium growth to a height of 80 feet and a spread of 60 feet. Prefers full sun and moist well drained soils. Very pollution tolerant. In mid to late autumn provides fruits for birds.

**S. Staghorn Sumac, *Rhus typhina*:** Rapid growth to a height and spread of 25 feet. Will grow in any soil type, full sun and thrives in unfavorable conditions like polluted city air.

**T. Black Gum, *Nyssa sylvatica*:** Also know as Black Tupelo. Height 20 to 30 feet. Spread of 30 to 50 feet. Produces tiny green flowers, that are very attractive to bees.

**U. Shagbark Hickory, *Carya ouata*:** Slow growth to a height of 100 feet with a spread of 40 feet. Prefers Full to partial sun and well drained moist to dry soils.

### SHRUBS

**V. Common Elderberry, *Sambucus canadensis*:** Very fast growing to 10 feet in height with a spread of 6 to 8 feet Bluish-black berries are edible and are also a food source for wildlife. Grows in any type of soil and is wetland tolerant.

**W. Ninebark, *Physocarpus opulifolius*:** Grows to a height of 5-10 feet with a rounded shape. Small white flowers develop into red fruit in fall which provides food for wildlife. Plant in full sun to partial shade, very hardy and drought tolerant.

**X. Button Bush, *Cephalanthus occidentalis*:** Medium growth to a height of 7 feet with a spread of 15 feet. Grows in full sun. It is a wetland plant that has globular pure white flowers in the summer. Plant provides cover for ducks, flowers attracts bees, butterflies and birds.

**Y. Spicebush, *Lindera benzoin*:** Height of 6 to 12 feet. Deciduous shrub, very tolerant of wet conditions. Suitable for shady areas. Scarlet fruit fall through early winter.

**Z. White Flowering Dogwood, *Cornus florida*:** Native tree that bears white flowers in spring and red berries in fall. Shade tolerant.

**AA. Black Chokeberry, *Aronia melanocarpa*:** Fast growing to a height of 3 to 5 feet and a spread of 10 feet. Single white flowers in late May. Purplish-black berries in fall. Fall color

**If you have any questions call our office at 330-722-9316.**

**Please do not call Geig's Orchard**

## Miscellaneous Sale Items

**BB. Flags** (10) - Flags are 21" long with a blue flag for easy spotting of your seedlings in yards and fields.

**CC. Fertilizer tablets** (10) - Time release tablets for trees and other plants. The formula contains nitrogen, phosphorous, potassium, and trace elements in solid form to feed plants in a wide range of soil and climate conditions. Use one tablet per seedling, transplant, and other wood cutting.

**DD. Bluebird House** (each) - these houses are made from cedar. The ideal location is near mixed hardwood forests or grasslands. Boxes should be mounted on posts about 5 feet above the ground.

**EE. Northeast Perennial & Annual Wildflower mix** (1 ounce packet) - This is a beautiful all-purpose wildflower mix, containing about 1/3 annual wildflowers for first year & 2/3 perennials for color the following years. This is a mix of native and naturalized species. Each packet will plant 200 sq. ft.

**FF. Garden cover crop seeds:** (1 lb packet) - Garden Cover Crop Mixes help to reduce erosion and compaction, and increase water permeation in the garden. They also hold minerals normally leached from your soil over the winter. Densely planted cover crops will suppress perennial and winter annual weed growth. The top growth and roots add organic matter to the garden soil. The cover crop's root system also opens passageways that help improve air and water movement and supports microbial life. This microbial life works synergistically with the roots, bacteria and fungi to improve soil health. Mix contains untreated seeds suitable for organic gardeners, plant in August through October first, with no soil prep. Covers 200 sq. ft., winter kills. **\*\*These will be available for pick up in June.\*\***

**GG. Shiitake Mushroom kits:** Enjoy fresh, delicious gourmet mushrooms year-round. Each kit comes with 200 spawn plugs, 1/4 lb. bees wax, wax dauber, and 5 metal labels with growers guide. Each kit will plug approximately 10 3 to 4" diameter logs, 40" long. It can take from 7 months to 2 years for the mushrooms to spawn. Logs (you supply) that will work include white oak, bur oak, swamp white oak, red & black oak, soft maple and hickory.

Seedling Pick up dates:

April 26 (8:00 a.m. - 6:00 p.m.)

&

April 27 (8:00 a.m.- Noon)
